

**DME NEWS UPDATE**  
**As of November 15, 2006**

The new K codes for power mobility will be available for use starting 11-15-06. The codes will be added to the January 2007 fee schedule, which is currently being developed. Pricing will be Manual, which requires a manufacturer's invoice to be submitted for the prior authorization.

**Update:** After further review by DMS, A4353 will continue to be covered. Quantity limitation will be 124 units per month. Quantities over 124 units per month will require a prior authorization. Evidence of repeated urinary tract infections requiring either hospitalization or repeated use of antibiotics will be necessary to obtain a prior authorization. For prior authorization requests after the initial request, response to use of the item must be documented.

To view the current fee schedule, go to the Fee and Rate Schedule site at <http://www.chfs.ky.gov/dms/fee.htm>.
